ANNOTATION: this article is about Zahiriddin Muhammad Babur " Baburnoma" his scientific views in his work, his work in the field of history, geography, biology and manuscripts, as well as Beaver's creative ideas, their younger generation it is illuminated how important it is for.

KEY WORDS: Zahiriddin Muhammad Babur, Baburnoma, creativity, personality perfection, science, development, art, education

INTRODUCTION: We are a member of the peoples of our country, including Central Asia and in general Long years, influencing each other in friendship and cooperation of the peoples of the East we are proud of the immeasurable material and spiritual resources created during. This universal without wealth imagine culture, its history and development it is difficult to do and in most cases it is impossible. Reflect on this as for the president of the Republic of Uzbekistan Shavkat Mirziyoyev 2020 on January 20 of the year, we can't help but admit the following points. "Speaking at the first session of the Senate of the House of Commons in the new composition President Shavkat Mirziyoyev about the importance of understanding national history stopped.

Zahiriddin read Muhammad Babur's " Boburnoma as an exalted creator of his time, a person striving for innovation wherever we are, we will witness that they are engaged in creativity. Especially the work done in Afghanistan and India no. Babur made an enormous contribution to the development of the culture of these lands. First of all, to decide on statehood and social management, improvement to escalate their work, to reform the military structure, news to this area as well sought to include. His short, 47-year life was spent in reckless battles and battles .The Sultan of the Babur era, fulfilling the role of King, again gave us generations an invaluable " Aruz the treatise " Dec left a scholarly work, a poetic Devonian, a manuscript on the creeds of religion. Many of the examples in "the Whirlpool" are designed to be too civilized man-not just king Beaver, literally engineer Beaver, it embodies the true soulfulness of the structure being created before our eyes. Pleased with the work of the creator from the following passage, each laying brick, from the stone we will notice the state of a person who feels the pleasure of life: "Tonglasiga I wandered through the Holy Land. Yakpora kaylador they would not bring the face of the basin to the end of a career,I was ordered, the sangtaroshs would come to a lot and take a career, the bottom of the basin more honestly, pour water and weigh around it. A career in late prayer digar Basin they finished their face. I ordered that they filled the water. Weigh the water around it, they became obsessed with keeping up. It's the turn I ordered another office, the ground of the yakpora stone they shave, a small basin in the yakpora too toshdin kazgai".

"The Beaver" is a work of literary and historical importance. In it of his time experiences of many people in different situations, many mountains of Asia, rivers, forests and deserts, climate, population, social, economic, political situation information about is summarized.

The work expresses the events of the time when the Beaver lived in history. This events range from Andijan, Samarkand, Khojand, Herat to Kabul and Agra has coverage. That is, in it from Central Asia to India almost 50 years of events at a distance have found true expression and assessment. Zahiriddin Muhammad Babur the great statesman, without becoming a poet, he is also a natural scientist.

Written by Babur, "Boburnoma"features Central Asia, Afghani nistan, History, geography of countries such as India, people's living interesting about the flora and fauna, along with its style, culture reference given.

He saw himself, based on his observations of animals and plants about structure, lifestyle, their similarities or differences reported data. In particular, the American researcher Berk Baburga the life path of the great Siem in short and succinct descriptions given, statehood in short, the most important aspects of his services and personality in his history achieved lighting. In relation to the rule policies of the author Beaver, It is writes: "in the opinion of Baburshah, one hundred thousand methods are considered true and necessary, even if one uses them in the work of conquest and judgment.

However, the occupation of the lands, especially in this although it is planned to include the territories as part of his kingdom, he is the victorious soldiers there was absolutely no way for the losers to plunder their property".Thoughts about it are also noteworthy: "I wrote the truth that I have," the author says and indeed he is wrong, which led to his own short comings, bad luck does not hide his behavior from the reader.

Zahiriddin read Muhammad Babur's " Baburnoma as an exalted creator of his time, a person striving for innovation wherever we are, we will witness that they are engaged in creativity.Especially the work done in Afghanistan and India no. Babur made an enormous contribution to the development of the culture of these lands. First of all, to decide on statehood and social management, improvement to escalate their work, to reform the military structure, news to this area as well sought to include.

His short, 47-year life was spent in reckless battles and battles .The Sultan of the Babur era, fulfilling the role of King, again gave us generations an invaluable " Aruz the treatise " Dec left a scholarly work, a poetic Devonian, a manuscript on the creeds of religion. Many of the examples in "the Whirlpool" are designed to be too civilized man-not just king Beaver, literally engineer Beaver, it embodies the true soulfulness of the structure being created before our eyes.

Babur in his work the geographical position of the place, which climate belongs to, plants, described animals and from ancient times in Central Asia since about the fact that there are several varieties of melons, wheat, apricots, pears and fruits stressed.

The work describes the nature and peculiarities of the places where Babur went Comparisons with Andijan and Samarkand, as well as Central Asia, Afghanistan, He gave a detailed account of the fauna of khurosan and India.The Beaver divided the animals into four tribes: land animals, poultry, separated into animals and aquatic animals that live near the water.

It can be seen from this information that Beaver is also unique in the field of biology views were. That he used a method of observation, comparison in this area I can say.
