Introduction

Uzbekistan has a huge tourist potential. The Republic is not only in Central Asia, but all over the world it is considered one of the Centers of Tourism. Uzbekistan unique history and architecture corresponding to different periods of history has ensembles. Architecture in ancient cities with the embodiment of monuments of modern national architecture acquires a unique harmony.

China in ancient times with European countries located on the Great Silk Road connecting Uzbekistan traveling in their cities is very attractive for tourists. These include Bukhara, Samarkand, Khiva, The cities include Shahrisabz, Kokand and Termez.

Raising the potential and use of the region's tourism sector to the level of Public Policy in the future, it is important in the complex rapid development of territories and their infrastructure.The leadership of the region's tourism sector in the state economy, pressing socio-economic tasks solving, increasing jobs, ensuring the diversification and development of territories, increasing the income, standard and quality of living of the population and the investment attractiveness and image of the country is instrumental in improving.

Until this cube, a number of studies have been carried out on the development of tourism in the region, which scientific approaches differ in bias. Russian economist Ye.A.Regional tourism “Zaliznyak " is each other necessary for the satisfaction of tourist needs in a particular area and its development perform functions that are interrelated with is a complex system organized for", defined as gave [7]. Tourism in the development of regional tourism the market plays an important role. Russian economist I.T.Balabanov believes that " the tourism market is tourist between product consumers and sellers consists of the sum of economic relations” [5].

From the main objects of the regional tourism market one is Tourist Services, Russian economists I.V.Zorin and V.A.Kvartalnovs to tourist services they define: "tourist services are basic, Additional that meets tourist needs nd is a complex set of services. They are necessary for the organization and transfer of tourism to the main services services include travel to additional services at the place of rest, without taking and need services provided, integrated services a set of guaranteed tourist services on the ticket”- contributors [6].

Regional tourism in the Republic of Uzbekistan as we aim to develop the industry, we do it approach to implementation regionally we marry as appropriate. Today the development of tourism in the regions contributes to the development of the tourism industry of a whole country view from the point of view - scientific approach requires. The fact that regional aspects in the development of the tourism industry should be taken into account in this, special in the development of the tourism market of the region full attention to the features, the implementation of regional policies in the formation of Industry Development issues, operating tourist firms placement and results of their territorial activities monitoring organization issues currently scientific and of methodological importance.

Creating favorable conditions for the development of Tourism, first of all, in the private sector,the competitiveness of the services provided and to improve the quality, the world of national tourism products active and integrated promotion in the market, all this is for 2022-2026 in the development strategy of the new Uzbekistan reflected, " across Uzbekistan sayokhat the number of

local tourists under the" Make " program To increase from 12 million people and to the Republic the number of foreign tourists to visit is 9 million empowerment is one of the main goals of the strategy.

Tourism in Uzbekistan as a sector of our economy also contributes to GDP proceeds. By foreign currency revenue tourism sector from leading sectors in our country is one. In addition to diversifying the economy and ensuring population employment is the main tool. National tourism sector some statistics to determine its position in the economy it will be necessary to analyze the data.
